Subject: FW: Assistance with Bayer FOIA request for 24(c) info
Date: Wednesday, September 26, 2018 6:44:54 AM

Lashonia,

Here are the notes that my Division Director, Yu-Ting Guilaran, took.

Kevin

Subject: RE: Assistance with Bayer FOIA request for 24(c) info

This is what I have for notes:

Attendees from AgLogic: Chip, Antwan, 2 counsels (Jim and Christin), beth mileson, Larry; Tom Jerkins (Premium); Stansley (UF)

Intro by Aglogic

- AgLogic submitted to FL 24C
- Concerned with "relationship with EPA"
- Hope to have a dialogue with EPA

Presentation by AgLogic

- Tom Jerkins: Personal credential, president of citrus research foundation, chairman of Farm Bill
- Stansley: Concern about having no more insecticide available in the tool box
- Beth Milesen
- Jeannell
 - Tolerance - oranges, lime, specific commodity and not specific citrus
Is there any pending cancelation of tolerance?
 - Pollinator issue not applicable to 24c
 - FL is responsible for making the safety finding

EPA's feedback

- Not a decision meeting and encourages AgLogic to continue dialogue with FL
- EPA appreciates the presentation; however, some questions on AgLogic's information include:
 - ground water lateral flow justification
 - Bayer Mexico on use in imported oranges - share registration label (no regular supply of aldicarb anywhere in the world except US)
 - Basis for 20% PCT assumption

Regards,

Yu-Ting Guilaran, P.E.
